This is a map of the Gambia. The Gambia is the smallest country on the African continent, surrounded on all sides by Senegal. It stretches along the length of the River Gambia.

Banjul is the capital but Serekunda is the largest urban area with nearly 350, 000 people living there.

Year Two. Knowledge Organiser-Serekunda

Human Geography

Fish market, Bakau

Market Stall, Bakau

School

Serrekunda Street

Physical Geography

Paradise Beach

Baobab Trees and Coasts

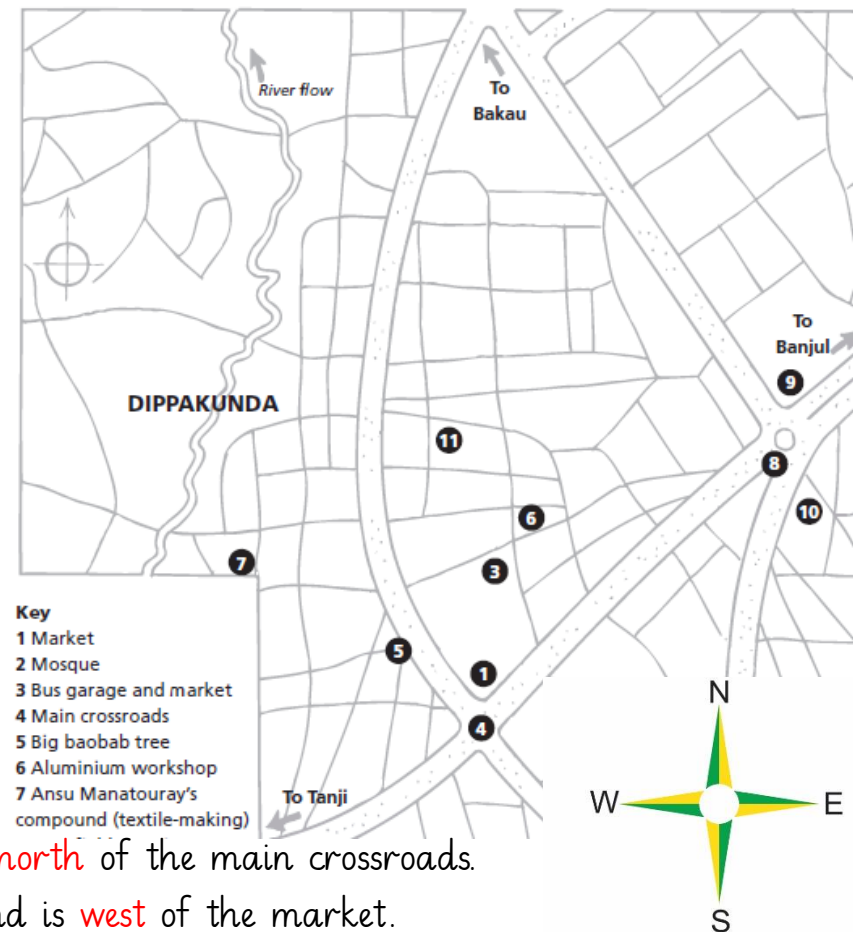

Creek and Mangroves

In Geography, we use compasses to describe a location.

The compass has four main points; North, East, South and West.

Map of Serekunda

The market is **north** of the main crossroads.

Ansu's compound is **west** of the market.
