<p><b>Turn on the subtitles!</b></p> <p>We mention it a lot at Newfield but turning on the subtitles while children are watching television can <b>'double the chances' of a child becoming good at reading!</b> It's so brilliantly simple and can help children's literacy so much that we want to shout it from the rooftops! There's extensive global research that shows just how effective this is. For more information on the research <a href="#">click here</a>. Most apps such as Netflix, Prime Video, Disney+, Apple TV and iPlayer allow subtitles on almost every show. "Live" programs, such as those on Cbeebies and CBBC, are normally also available with subtitles on. Finally, click the "CC" button on YouTube to activate the subtitles on any videos/shows your child might be watching!</p> <p><i>"Just turn on the subtitles. Extraordinary. Evidence has shown they can double the chances of a child becoming good at reading."</i> (Lenny Henry, author and comedian, pictured right)</p>
